means parents as they will prosecute to the extent of the law all such infringments.

Our machines are now offered for sale for the first time. They have been in use in this city for one year. One firm has made ten thousand dozen Cloth and Plash Caps. Several other companies have employed them very profitably in making ciothing, carpet and grain bags, and for other purposes. There are a number now in use at the factory of H. W. Bank & Co. Elm, comer of Canal-st, where those wishing to purchase are invited to call and see them in operation. Messrs. H. W. B. & Co. are another-sed to make sales of Rights or Machines for use in this city.

These machines are so easily managed, that a coint of 14 years of age has kept seven machines (which are propelled by steam and employed in making bags) in good order for some months past, attending at the same tims to the running of her own machine and doing with it the work of four satulat if sawing by hand.

These machines can be driven by hand, treddie, or steam power. To persons wishing to make an experiment before buying, a machine would be renied at a moderate price. We confidently assert that these are the only machines of real practical utility, and while we invite an examination of the machines now in operation, we repect our caution spinatiafringments, which will certainly be prosecuted.
